

FACHPACK>

23. – 25.09.2025

NUREMBERG MESSE
HALL 4 BOOTH 349

From 23 to 25 September, ETIMEX Primary Packaging GmbH will be **presenting future-oriented packaging solutions for the food and pharmaceutical industries** at FachPack 2025 in Nuremberg – while also celebrating a very special anniversary: 75 years of packaging expertise *made in Germany*.

As one of the **leading manufacturers of ready meal trays, thermoformed rigid films, flexible films, and innovative blister packaging**, ETIMEX will showcase how sustainable materials, product safety, and process compatibility can be successfully combined.

The focus of the trade fair appearance will be on recyclable packaging solutions based on PP monomaterials – developed in line with the requirements of the new EU Packaging and Packaging Waste Regulation (PPWR).

Another highlight: **new solutions based on recycled and mass-balanced raw materials.**

Thanks to **ISCC PLUS certification**, ETIMEX can demonstrate the sustainable origin of its raw materials through the mass balance approach, laying the foundation for transparent supply chains and CO₂-reduced packaging solutions.

„Our 75th anniversary is a milestone we are very proud of. It shows that we successfully combine tradition and innovation – in close dialogue with our customers“, says Martin Rank, Head of Sales & Marketing at ETIMEX Primary Packaging GmbH. „FachPack 2025 is the ideal platform to continue this journey together.“

Visit us in **Hall 4, Booth 349** – and discover how environmental compatibility, performance, and regulatory safety can be united in modern packaging solutions.

The ETIMEX team is looking forward to exciting and practical exchanges with you!
